# Instructions for connecting to the Wifi with Windows 10

NOTE: PLEASE REMOVE ALL VPN APPS FROM YOUR DEVICES – YOU WILL NOT BE ABLE TO USE THE SCHOOL WIFI WHILE YOU HAVE VPN APPS INSTALLED

Step 1:

From your available Wi-Fi networks, select **Sherborne Onboarding**, then click CONNECT.

Step 2:

Open a browser and at the presented Wi-Fi portal screen, log in using your **school email address and password** (you may need to refresh the page once or twice), then click NEXT.

Step 3:

Select your device and add your initials to the beginning of the name – if you are connecting an additional device, you will an have an option to select **This is an additional device.**

Click CONTINUE.

Step 4:

Make a note of the **KEY** that is presented to you (you will need this at a later point). The key is also emailed to your school email address.
Click FINISH.

Your KEY for the "Sherborne" network is
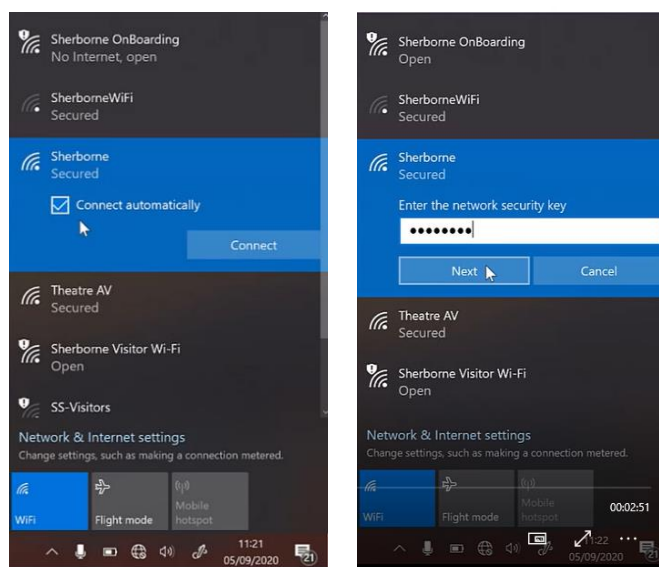

keytoconnect

Copy this key on the screen

Now go to Wi-Fi networks and select the **"Sherborne"** network and enter your key.

This has also been emailed to you.

IMPORTANT: You will need to install a Web certificate before you can browse the internet.

Step: 5

From your available Wi-Fi networks, select **Sherborne,** click **CONNECT**, enter the **KEY**, then choose NEXT.

Step 4:

If you have a QR reader, use the QR code shown above, or open your web browser and in the address bar, type the address shown below (take extra care to ensure you type it exactly as shown)

https://iceni.sherborne.org/opendium.crt

Open the downloaded certificate file and choose **Install Certificate**
Choose **Current User**, then select NEXT
Choose **Place all certificates in the following directory**, then click BROWSE
Choose **Trusted Root Certification Authorities**, then click NEXT and FINISH
Select **Yes** to accept the certificate, then select OK
Click OK at the bottom of the certificate.

You should now be able to access the internet. Try to access Google.co.uk.
